SUMMARY

Frontend Developer & Data Analyst with **professional experience** in building scalable web applications and data-driven solutions. Skilled in **React.js, Next.js, JavaScript, Python, Excel, and Power BI**, with hands-on experience in API integration, data automation, and dashboard development. Adept at collaborating with cross-functional teams, optimizing application performance, and delivering actionable insights through data visualization.

SKILLS

- **Programming Languages:** JavaScript, Python
- **Frontend Technologies:** HTML, CSS, React, Next.js, WordPress
- **Backend Technologies:** Node.js, Express.js, socket.io
- **Databases:** MySQL, MongoDB
- **Data and BI Tools:** Microsoft Excel, Power BI (Dashboards, Reports, Data Modeling)

EXPERIENCE

Frontend Developer, Codizio, India

- Designed and developed **responsive, high-performance web applications** using **React.js, Next.js, HTML, CSS, and JavaScript (ES6+)**.
- Implemented **server-side rendering (SSR)** and optimized frontend performance to enhance SEO and user experience.
- Integrated and consumed **RESTful APIs**, collaborating closely with **Node.js backend services**.
- Participated in **code reviews**, version control, bug resolution, and feature enhancements using **Git/GitHub**.
- Managed, cleaned, and analyzed **business and operational data using Microsoft Excel**, ensuring accuracy and consistency.
- Built and maintained **interactive Power BI dashboards** to monitor KPIs, employee activity, and operational metrics.
- Developed **Python automation scripts** for:
 - Web data scraping
 - Extracting and consolidating data from multiple files
 - Automating reporting and data processing workflows using **Pandas**

PROJECT

[Employee Management System](#)

- Developed a secure role-based Employee Management System with separate access for Admin and Employee users.
- Implemented **authentication and authorization** with role-based data visibility.
- Designed and integrated **attendance Check-In / Check-Out** functionality with **MongoDB** persistence.
- Enable **administrative workflows** for attendance monitoring and leave approval.
- Integrated **real-time communication** using **Socket.io** to support operational collaboration.
- Generated **analytical reports and dashboards** using **Excel and Power BI** to support decision-making

Education

Jamia Hamdard University

Bachelor of Technology in Computer Science Engineering- <i>CGPA</i> - 6.7	2024
Intermediate CBSE <i>CGPA</i> - 6.1	2019
High School CBSE 7.8	2017
